

I urge you to take action to prevent Sinclair Broadcasting from forcing its stations to air a blatantly political program, "Stolen Honor", just two weeks before a national election. The airwaves are supposed to belong to the public, and should not be used for blatant propaganda. I recognize that the Chairman of the FCC was appointed by the very man who has the most to gain from this propaganda piece, so there is a built in conflict of interest for Mr. Powell. If the FCC fails to take action in this matter you will be telling the world that the FCC, AND MR. POWELL are nothing more than tools for politicians, and that the FCC has NO INTEGRITY. Think about your place in history. Show some backbone and either stop Sinclair or require it to provide equal time to the other side. Sincerely - Wayne Hynum
